

END-OF-YEAR APPEAL;

As the People Relationship Manager for Christian Partners Development Agency, I am inspired to approach well-wishers and organizations like yours during this season of the year, especially now, with the end of the year drawing to an end. The fact is, CPDA has no donor currently, and we need to do our critical work on women, environmental protection, and climate change literacy, and if we don't ask for your assistance, our work will stall and lose the gains, and it will affect all of us, including the 2026 planned activities.

During my evening group consultative meetings with the board members, staff, and volunteers, we have agreed to act and bridge the gap, and I'm pleased to say we've got a plan! But it's important to involve you for it to work. **Already on our own, nothing seems to be moving, and we need an extra hand. We need your support.** *We have the Team, we need Facilitations.*

We therefore urgently need 400 monthly donors by the end of May, 2026 to keep protecting the work of CPDA, where carbon removal enhancement activities with small landowners and women environmental human rights defenders (WEHRD) are working to promote CO₂ removal for our healthy lungs for the current and future generations.

Will you be one of the good-hearted and planet-minded team players and monthly contributors we are chasing globally?

I AGREE.

Christian Partners Development Agency accounts for every donated dollar, and we are compliant with the NGO Board—our success is people-driven, like you giving what you are able to afford, especially during these difficult times.

Your support will enable us to reach more women on the farms for land and environmental protection as front liners, restore degraded land spaces, and enhance soil health, CO₂ removals, water access, and landowner's education for climate change literacy.

You are important to us, and it's only possible if you make a decision now for our support towards 2026. Drive us to make the all-important decisions to remove CO₂ specifically from the planet through our small efforts in Kenya and with landowners.

In the past years since 1993, CPDA has been entrusted by the donors to drive change, and all such activities have been concluded successfully and to the satisfaction of the many donors. See <https://www.cpda.or.ke/>.

Our past partners made it possible to:

1. Increase access to water by communities in 15 counties in Kenya, including Vihiga, under the European Commission.

2. With donor support, girls were empowered through intergenerational storytelling under Bawso of the UK.
3. Through the donor support, land and forest restoration in Maragoli Hills has been going on.
4. Through their support, 200 women Climate Change Champions were created in Nyamira County.
5. Through them, Women for Democratic Leadership have been mentored in Kenya and in western regions and many have participated in the electoral process with great success.
6. Through them, Neighboring Assemblies have been established in Vihiga, western Kenya.
7. Through them, the Urban Public Parliaments were born in Kenya to enhance public participation and information sharing, and many more.

Therefore, your monthly support makes all things possible for us. Partners with us today:

Will you join us with a donation and help CPDA deliver on your behalf and together with us?
Together is BEST;

Donation Rates:

USD 20, 50, 100, 200, 300+

Thank you, and enjoy your end-of-year XMASS with peace.
